- Military
- Photography
- Public Relations/Marketing
- Safety
- Security
- Weather

Airport
Management

Hospitality

Air Traffic Control

Manufacturing

Scheduling

UAVs

Engineering

Aerobatics

Commercial Aviation

The aviation and aerospace industries have exciting career opportunities—and companies are hiring! Whether you are considering a two- or four-year college degree program, professional or technical programs, the industry offers rewarding careers. And each year hundreds of thousands of dollars in scholarships are awarded to help support your career goals.

Boeing predicts that over the next 20 years the industry will need to hire more than one million new aviation personnel—558,000 commercial airline pilots and 609,000 maintenance technicians alone.

When you're a pilot, you have a host of choices—you can fly for an airline, for a company, or even for agricultural purposes. How about becoming a helicopter pilot who reports the news or transports critically ill people to the hospital? But there are so many more jobs than being a pilot. You can become an air traffic controller, an aeronautical engineer, an airplane mechanic, or electronics technician—just to list a few. Any job you can dream of can be done in aviation and aerospace.

Consider the benefits of a career in aviation and aerospace:

- Travel the world! Airplanes and aviation can take you anywhere.
- Jobs are available worldwide. Because of the demand for trained aviation professionals, jobs exist in places ranging from the smallest town to the biggest city. Your choice!
- A career in aviation brings respect. You will be part of an international industry that serves citizens worldwide.

MORE WAYS TO LEARN ABOUT CAREERS IN AVIATION AND AEROSPACE

Every year, WAI chapters around the globe host their own one-day Girls in Aviation event to attract more young women to the aviation and aerospace communities with a day of activities appealing to girls ages 8 to 16 years of age. In addition to a selection of educational materials, each participant in Girls in Aviation Day receives the magazine *Aviation for Girls*, which includes information on scholarship opportunities, aviation and aerospace colleges and universities, feature articles showcasing role models, and articles to illustrate aviation as an exciting career and lifestyle.

To find out more about upcoming Girls in Aviation Day events visit www.WAI.org/GIAD.
